

## KITCHEN SINK (CRYSTAL SURFACE)

Thank you for your purchase of our product.  
We kindly ask you to carefully read this instruction manual to ensure the correct and safe use of the product.  
Please keep this manual in a secure place for future reference.

### 1 SAFETY PRECAUTIONS (must be adhered to)

Carefully review the "Safety Precautions" section before using the product to ensure proper usage. Failure to study these precautions can lead to serious consequences, including injuries or property damage.

#### WARNING

**Do not self-disassemble, repair, or modify the product.**

Failure to comply may result in injury or accidents. For repair assistance, please contact the dealer where the product was purchased.

**Do not step on the sink.**

Such actions can potentially cause damage to the sink or result in injury.

#### CAUTION

**Water supply and drainage work should only be carried out by individuals who are qualified and comply with relevant laws and regulations.**

Failure to comply may lead to water leakage.

**Small children or individuals requiring assistance using this product should be accompanied by a caregiver.**

Be aware that unexpected injuries may occur.

**Ensure proper installation of built-in electrical products, water faucets, etc. by following the instructions in the respective manuals and the indications on the main unit.**

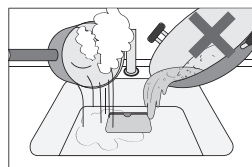

Failure to follow the instruction manual may potentially result in unforeseen accidents or operational failures.

### 2 USAGE PRECAUTIONS (must be adhered to)

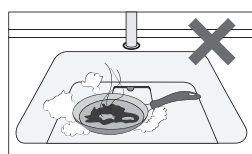

**Do not pour hot oil or boiling water into the drain.**

Risk of damage, leaks, and clogs in resin pipes. Run water when pouring boiling water down the drain. Avoid pouring hot oil down the drain.

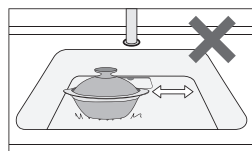

**Do not place hot frying pans and other heated items directly into the sink.**

Repeatedly placing hot frying pans, earthenware pots, boiling kettles, etc. directly in the sink can result in discoloration or cracking.

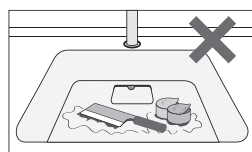

**Do not drag cooking utensils, dishes, pot, or other items across the sink surface.**

Dragging items across the sink may scratch the surface.

**Do not leave wet ironware unattended for an extended period.**

Never leave wet knives, cans, pans, etc. unattended. Transferred rust can be permanent and hard to remove.

**Do not use or keep away from solid or powdered cleansers, bleaches, or slime removers.**

Avoid these substances as they can cause corrosion or deterioration.

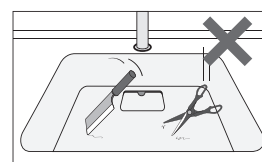

**Do not leave rubber products or items with rubber feet in the sink for extended periods.**

Prolonged contact may cause discoloration.

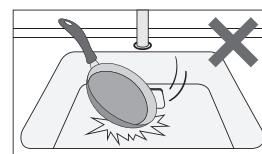

**Do not press or drop hard, sharp objects, sand, shells, or similar items against the sink.**

Such actions may cause scratches and make dirt removal challenging.

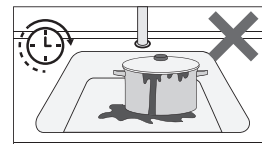

**Avoid subjecting the sink to strong impacts.**

Dropping sharp or heavy objects on the sink can cause damage, deformation, or cracking, posing a risk of potential injury.

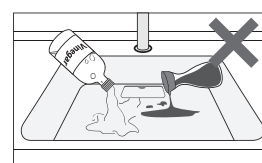

**Avoid leaving water droplets or dirt on the sink surface.**

Regularly wipe the sink to prevent hard water stain and other stains.

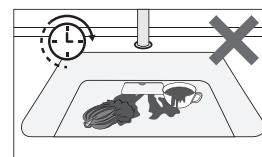

**Promptly rinse off salty, alkaline, acidic solution, etc.**

Immediately rinse off soy sauce, vinegar, dried plums, and seasonings with water to prevent sink surface discoloration.

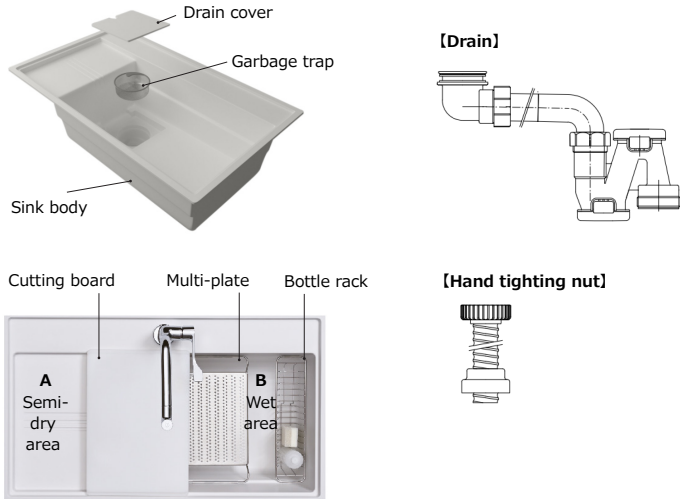

**Promptly wash dark-colored foodstuffs (kimchi, curry, tea, coffee, etc.) and stains or dyes from dark-colored dishcloths.**

Prolonged contact makes stains removal challenging.

### 3 PART DESCRIPTION

- ※ Illustration may differ from actual product.  
 ※ Please follow the instruction manual of the faucet fitting for proper usage.

#### ■ How to use sink accessories

- **Do not place heavy objects on the multi-plate, drain cover, or low deck plate, or use them as a cutting board.**  
Risk of damage or deformation of the product, or lead to unintended injury.
- **Do not misplace accessories or put things on when they are not in place.**  
Risk of dropping accessories, which may cause scratches and chips around the sink.
- **Avoid leaving metal items on the drain plate or bottle rack for an extended period.**  
Risk of causing accessories to rust.
- **Do not place hot pans directly on the cutting board.**  
Risk of discoloration or deformation.
- **Do not leave detergent on stainless steel parts for an extended period.**  
May result in discoloration.
